

New Product Announcement

Now you can use your phone or tablet for all your scanning needs!

Success Systems is pleased to announce a new software app for your phone or tablet to handle all of your scanning needs. ItScans™ is compatible with Android operating system 6.0 or higher and an IOS version will be available April 1st.

- ItScans™ is integrated in real-time to ePB™. There is no longer a need to cradle a device, upload or download data. ItScans™ seamlessly manages the data transfer.
- ItScans™ also includes a new scratch lottery management feature. Scan your tickets at the end of the shift to immediately see what your lotto inventory is.
- Bring ItScans™ with you to Costco, Sam's, Walmart or your cash and carry to scan an item and check the price, create an invoice, or check your store stock.

Available March 1, 2019 for Android devices...The new app allows us to cut the price of a handheld scanner by nearly 2/3rds. The new low price is just \$895 per device. If you order by February 14th you can save an extra \$200.00

All the functions of your current scanner and more!

- **Receive Vendor merchandise** – (DSD) This data is then transmitted to Success Systems' back office application and displayed in the invoice entry screen for further review, modification or acceptance.
- **Add new products** – New products can be identified on the shelves and then transmitted to Success Systems' ePB application.

- **Manage all your items at the shelf** – ItScans™ allows retailers to add or edit items, descriptions, department, and prices.
- **Store Inventory auditing**
 - **Price validation** – Check the master price book with the shelf prices to insure consistency.
 - **Quantity on hand** – Validate actual inventory and develop shrinkage reports.
- **Create purchase orders for product reorders** – Any item on the shelf may be re-ordered through the hand-held app. When transmitted to Success Systems' back office application a purchase order will be created for that order request.
- **Lottery scratch ticket inventory management** – use your phone and its camera to count your lottery tickets. Updates your inventory immediately in ePB™.

Order Before February 14th and save an extra \$200.00

Pre Sale Price of \$695.00 per device ends February 14th!
