

POS DATA CONVERSION TOOL

Put your new Passport POS terminal to work right away! Gilbarco is recommending Success Systems® Data Conversion Tool to convert to electronically convert the store's current Wayne Nemos's price book on your old POS register into the store's new Gilbarco® Passport™ terminal.

Our conversion tool will save you hours and hours of POS set up. It will pay for itself in time saved.

HOW IT WORKS

We will import the store's price book data to our server, check your UPCs for accuracy, and convert the data to the Gilbarco Passport POS format. Then, we will send the price book to your new POS terminal in no time.

BENEFITS

1 FASTER TIME TO MARKET

Avoiding manual migration of POS data can save a significant amount of time and money. Our Data Conversion tool assists you to rapidly reach you migration goals. Get your UPCs, store's prices and item's descriptions electronically transferred via the Internet into your new Gilbarco Passport terminal and ePB RetailLink™.

2 IMMEDIATE TIME AND COST SAVING

Utilizing Success Systems® POS Data Conversion tool can save you several weeks and guarantee accurate pricing almost immediately. The savings are from conversion and immediate price book scanning. You will have your POS data available and be able to scan at the register in a manner of minutes not weeks.

3 RELIABLE BUSINESS PROCESS

The reliability of POS scanning prices depends on the corresponding data quality. Success Systems POS Data Conversion tool ensures more reliable scanning sales by validating the data before its use at the store. Our Data Conversion tool comes with an optional ePB RetailLink™ license, which allows users to review, edit and add prices, items and departments from any PC with Internet access.
